The ADA Amendments Act was signed into law on September 25, 2008 and goes into effect on January 1, 2009. This free training will equip participants to formulate and promote lawful best practices and policy within their organizations. Effective interview and etiquette tips along with how to balance an employee's request for accommodation with the business/organization needs will also be discussed. The second part of this session will explore the common stereotypes and myths that often prevent the fair assessment of job candidates with disabilities.
